Pharmaceuticals

Fresh Seafood

Frozen Seafood

Fresh Produce

Cheese

Chocolates

Protecta Chill Gel Packs and Ice Packs are designed to maintain internal packing temperatures and protect sensitive goods during transit including; pharmaceuticals, pathology, food and fisheries. This proudly Australian made, cost-effective product comes in a range of weights and sizes enabling your business to engineer a tailored solution for your unique product and logistic requirements.

All Protecta Chill Gel Packs and Ice Packs are supplied in our purpose-engineered, breathable cartons. All-around airflow means the packs freeze faster and can be used sooner, saving you and your business valuable freezing time.

INDEPENDENTLY TESTED

Protecta Chill gel packs have been independently tested and validated against competitor gel packs. They exhibited faster freeze and longer thaw times. What does this mean for your temperature sensitive goods? Put simply, they're protected longer.

BUBBLE BARRIER

Protecta Chill gel packs are available with a bubble barrier option to protect against freezer burn. These are perfectly suited to pharmaceutical, pathology, seafood and other goods that require uniform surface temperatures.

CUSTOM PRINT

Promote your brand with our custom printed Gel Packs. Print the outer tubing with your logo and company details to add an additional cool factor to your already cold deliveries. PLEASE NOTE: Minimum order quantities apply, contact us today to discuss our tailored solutions and how they might suit you.

SIZE MATTERS

We know your product is unique to your business. Freezing and cooling requirements are rarely a one-size-fits-all solution. Speak to us today about how to choose the best size gel pack for your specific application and how to ensure the best value for money from your cool chain solution.
