Bags & Continuous Tube BUBBLE

- ✓ *Optimise Packing Lines*
- ✓ *Reduce Waste*
- ✓ *Increase Packing Speed*
- ✓ *All-Around Coverage*

Ceramics

Machine Parts

Books & Magazines

Jewellery

Do you produce, sell or manufacture consistent sized products that require packing and protection in transit? Books, clothing, machine parts, jewellery, glassware and even fresh produce. Our range of bubble bags and continuous tube are an effective and efficient protective packaging solution for just about any product.

Our easy-to-dispense Continuous Tube and Perforated Bags-on-a-roll create valuable packing efficiencies; save time, allow easy measure of required wrap and instant all-around protection without the need for fiddly wrapping or taping. Convenient rolls means they can be dispensed from overhead saving valuable bench and floor space.

Need something quickly? Our stock range of loose bags (supplied in a carton) are available for next day dispatch (see size chart). We have been manufacturing this tried and tested product since Sancell began in 1988. If you don't see the size you're after, please contact us today to discuss a solution tailored to your needs.
