

SANCELL GEL PACKS

HOW CAN I DISPOSE OF GEL PACKS SAFELY?

1. SNIP
Snip the corner from your gel pack pouch

2. ADD
1 Tablespoon of salt per kilogram of gel

3. MIX
Over the sink, shake pouch for 20 seconds to mix salt and gel into a liquid.

4. POUR
Pour the liquid contents down the drain. Rinse thoroughly.

The outer pouch is 100% recyclable!

OR
Add the gel to your garden beds. Sodium Polyacrylate can help soil to retain water...

The gel in Sancell gel packs only contains 0.5% Sodium Polyacrylate. The other 99.5% is water!

NON-TOXIC

Sancell ProtectaChill™ gel packs are safe for use with food, seafood, pathology samples and temperature sensitive pharmaceuticals. Each pack contains a non-toxic sodium polyacrylate gel inside. Should the unexpected happen and the gel contents come into contact with skin or food, the gel will cause no harm. We do advise to immediately wash gel from skin or food. The contents should not be ingested.

SUITABLE FOR REUSE

ProtectaChill™ gel packs are suitable for reuse. Each pack is made using robust, Australian manufactured tubing, designed to resist splitting and puncturing. Packs should be cleaned and sanitised thoroughly before being re-used. If a gel pack does begin to leak, it should be disposed of immediately and thoughtfully as per our guidelines (left).

NO PUNCTURES or TEARS

Made from Australian Made quality virgin material, our outer tubing is engineered not to tear or puncture.

ROBUST SEALS

High strength seals provide superior durability ensuring no leaks and preventing any splits.

ISO

All Sancell products are manufactured under ISO accredited systems in OH&S, Environment and Quality.

MADE IN AUSTRALIA

All ProtectaChill™ gel packs are proudly made at our manufacturing facilities in Melbourne and Sydney. Dual manufacturing sites gives us the versatility to move our gel packs around the country quickly and efficiently as well as giving us flexibility with supply.

Locally made gel packs means we are always in control of quality and production. We only use quality Australian made outer tubing, cartons and labels.

RECYCLABLE

The outer tubing of each gel pack is made from Low Density Polyethylene (LDPE4) and is 100% Recyclable. Safely dispose of the gel contents as per our guidelines (left). The outer tubing is then 100% recyclable.

RECYCLABLE

The LDPE 4 outer layer is 100% recyclable. Empty the gel contents into gardens to help soil retain its moisture.
